THE PRINTER SERVICES SPECIALIST Est. 1982

Precision Peripherals go live

Congratulations to everybody at Precision Peripherals who have recently gone live with Priority.

Here is what Mr Jonathan Richards (Managing Director) had to say.

"It's our first day of using Priority ERP and everybody is saying just how good it is.

Why not speak to your account manager about how we can use our system to improve the service that we give to your organisation?

A big thank you to Krishna, Tim, Djamel and Fode at Medatech UK for all the help and support that they have given us along the way"

New integrations page!

Our new webpage is live!

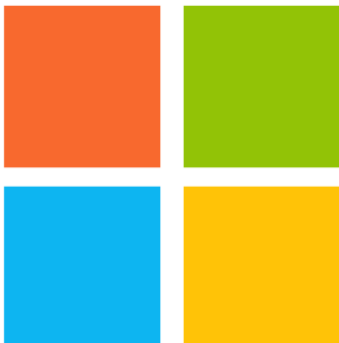

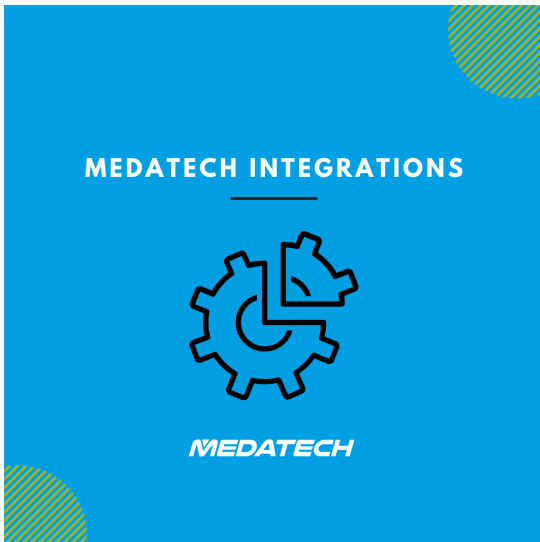

All details for any integrations that may be required can be found on this page, as we expand our integration offerings, the page will grow with new opportunities for Priority users.

Windows Server 2012 and 2012 R2 reaching end of support

Windows Server 2012 and Windows Server 2012 R2 will end on October 10, 2023. After this date, these products will no longer receive security updates, non-security updates, bug fixes, technical support, or online technical content updates. Microsoft has migration guidance for both cloud and on-premises solutions.
