V23.1 Report Generator

We are proud to announce Priority Analytics - a new, intuitive, and easy way to create reports.

Using new, innovative technology, now all users can build reports that include combined data from different modules and areas in Priority, helping you analyse and evaluate information, so you can make data-driven decisions.

Manchester ITshowcase

Tuesday 28th November.

After two busy ITShowcase events this month the team are gearing up for the final ERP discovery day of the year!

After 15 successful events this year we are glad to announce that we will be continuing our efforts with attending face to face events in 2024.
