Mobile ERP

A game changer for manufacturing organisations, enabling access to business operations anywhere, anytime!

Phil Nicholls

Medatech UK

We'll manage your systems
so you don't have to.

Affordable ERP solutions

UK's #1 reseller of Priority

ERP implementation,
customisation & optimisation

Medatech UK

100% focussed on Priority

Established for 22 years

Offices in Southampton and Manchester

ISO9001 & 27001 certified

Large and diverse installed base

Unlimited support access

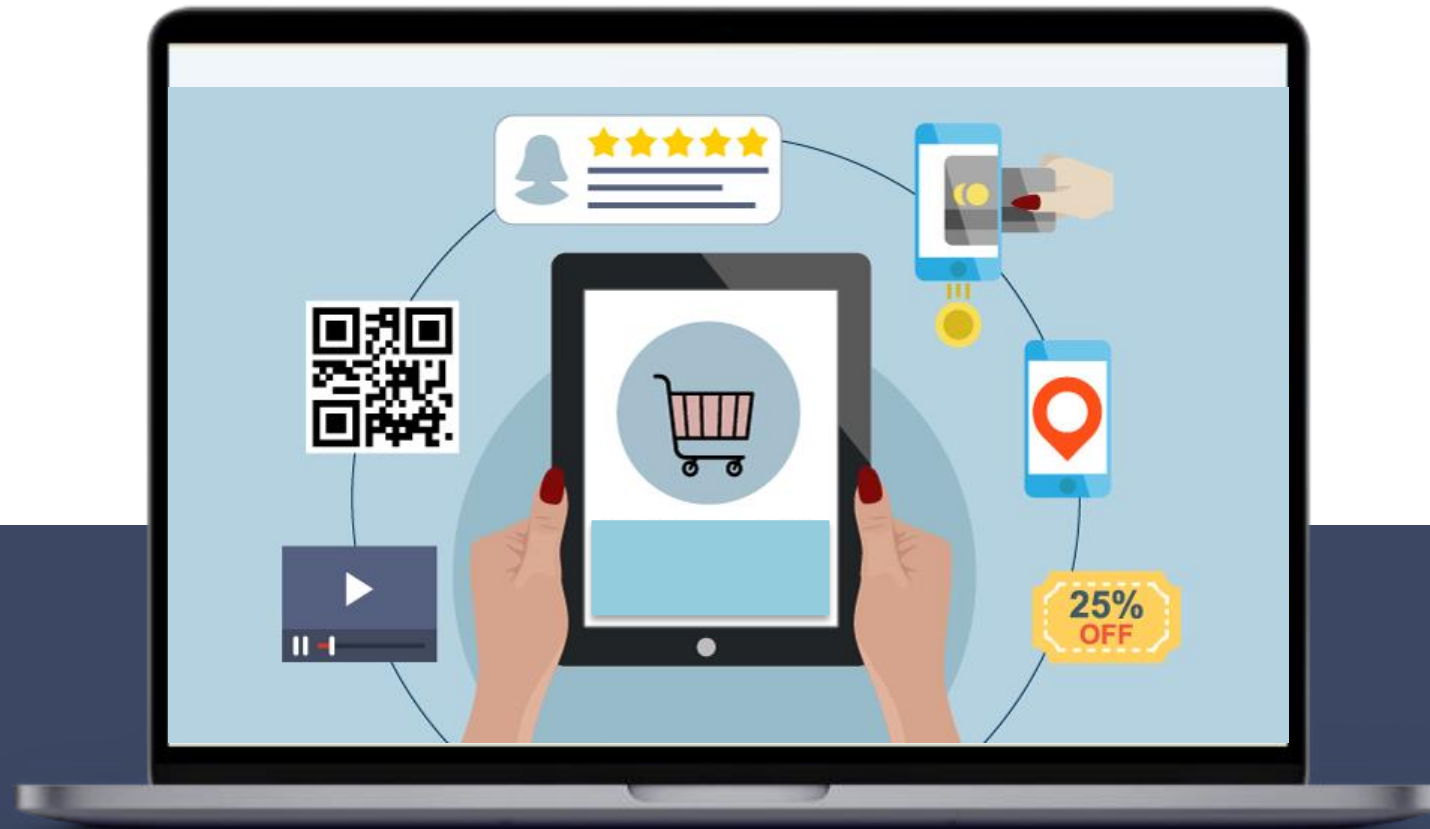

Who has customers?

Customers all have higher expectations

The importance of Mobile Access on the workflow

80% of the global workforce
operates desk less!

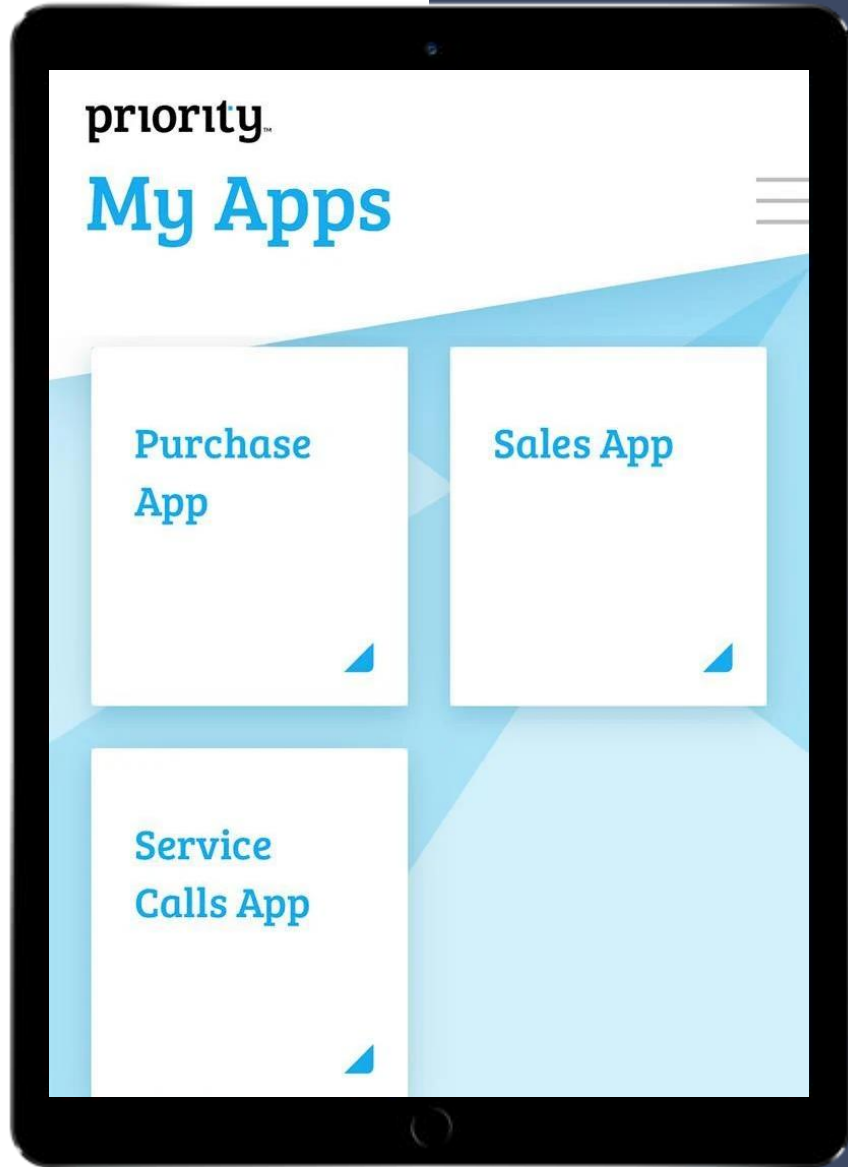

2.7 billion
people

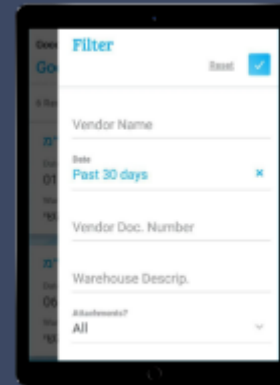

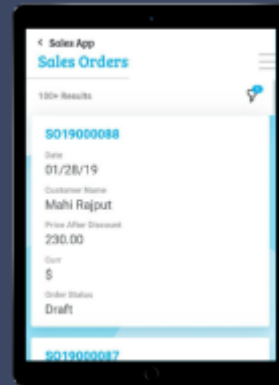

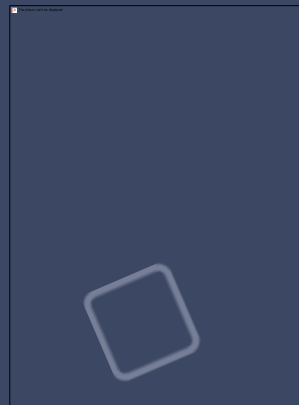

**Providing them with the tools
they need to stay connected,
productive, and efficient,
is crucial!**

Empower desk-less workers with the ability to

- access real-time data
- collaborate seamlessly with colleagues
- perform vital tasks wherever they are

Mobile ERP has transformed the way manufacturing organisations function!

Accessing crucial business information while on the move was challenging and often limited to office premises.

Cloud ERP

Mobile access for all departments

Vital information

Mobile ERP is about connecting experience

Agility and responsiveness

Enhanced productivity

Improved decision-making

More agility and responsiveness to customer needs

Agility can significantly increase productivity and customer satisfaction

Save time

Better buy-in from customers

Produce less error

Reduce inefficiencies

With Priority ERP, users gain easy access to Breakthrough Mobile ERP technology

Increased mobility and productivity lead to streamlined operations

Employees are no longer bound to their desks or limited to specific devices

**Access
real-time data**

**Collaborate
with colleagues**

Perform critical tasks on the go

Availability of real-time information allows informed decision making

Even at the lowest levels of decision-making, mobile ERP proves invaluable time after time

Immediate
ordering

Quicker
delivery

swifter invoicing
and therefore cash-flow

The unlimited capabilities of Priority's integrated mobile ERP solutions

system features
and functionality

any mobile
device or tablet

to meet the needs
of today's always-
moving workforce

Priority's integrated mobile ERP solutions

- Mobile Application Generator
- Web & Mobile SDK
- Out-of-the-Box Mobile ERP Apps

”

With the combination of out-of-the-box functionality and the ability to create custom mobile apps and web portals, Mobile ERP truly becomes a transformative solution for manufacturing organisations!

”

Let us share a secret...

Flexibility is one of Priority's **key strengths**.

Users enjoy customisable options, so that everyone's unique needs are met.

No need for a programmer to change fields, menus, document designs, BPM's, business rules or privileges!
